Welcome to Best Childcare Centers

Parent Information & Enrollment Packet

Cyn's Play Place · The Eli Center · The Canaan Center

More than childcare. A complete early childhood education system.

Our Mission

Best Childcare Centers exists to provide community-rooted, academically rigorous early childhood education that prepares every child for a lifetime of learning — without compromise and without exclusion. We believe exceptional education and community accessibility are not in conflict. They are our standard.

What Makes BCC Different

At Best Childcare Centers, we provide a structured, research-backed, language-immersive educational experience from infancy through elementary school — under one trusted brand family. Here is what you will not find anywhere else.

◆ Proprietary GLT — Global Language Track Curriculum

BCC is the only childcare network in our market operating on a proprietary, in-house developed curriculum. The GLT is not a licensed third-party program — it was built by BCC and is exclusive to our centers.

◆ Three-Language Immersion: French, Spanish & Hebrew

Beginning at age 3, children in our Cyn's Academy PreK program are immersed in three world languages. French builds academic prestige and international fluency. Spanish provides practical everyday communication. Hebrew adds cultural depth and historical richness. No other childcare center in our market offers this.

◆ Native & Fluent Language Instructors

GLT instruction is delivered by native and fluent speakers — real people, not apps or videos. Children experience authentic language immersion woven naturally into their daily environment.

◆ Contracted Language Instructor Network

BCC maintains a standardized network of contracted language instructors ensuring consistent GLT delivery at every location. Quality is never dependent on local hiring conditions.

◆ Developmentally Appropriate Practice

Our curriculum is grounded in established frameworks including Vygotsky, Piaget, Erikson, Bronfenbrenner, and NAEYC DAP standards — the gold standard in early childhood education.

◆ A Full Educational Continuum

BCC Centers (Infant–Toddler) → Cyn's Academy PreK (Ages 3–5) → Smith School of Excellence K–5. Your child's academic thread follows them from their first day at BCC through elementary graduation.

◆ Multi-Location, Standardized Operations

With locations across Georgia, Alabama, and Florida, BCC has proven its model beyond a single center. Every location follows the same standards, policies, and curriculum.

◆ Awards Recognition & Government Partnerships

BCC's track record includes formal recognition and established government relationships that validate our program quality to families and the broader educational community.

Our Core Curriculum

A BCC education is built on mastery of the five core academic subjects — the same foundation your child will carry through their entire academic career. Our Global Language Track is taught in addition to, not instead of, a full and rigorous academic program.

Mathematics

Number sense, operations, patterns, and problem-solving built progressively by age group.

Ages 3–12

English Language Arts

Reading comprehension, grammar, vocabulary, written and oral communication skills.

Ages 3–12

Science

Hands-on exploration of the natural world, basic scientific concepts, and inquiry-based learning.

Ages 3–12

Social Studies

Community, culture, history, geography, and civic responsibility introduced developmentally.

Ages 3–12

Reading

Phonics, fluency, comprehension strategies, and a love of literature developed from the earliest years.

Ages 3–12

+ The GLT Advantage

The Global Language Track is layered on top of the five core subjects — not in place of them. Beginning at age 3, children receive instruction in French, Spanish, and Hebrew delivered by native and fluent speakers, making BCC students not just academically proficient, but globally prepared.

French · **Spanish** · **Hebrew**

GLT Beginner (Ages 3–5) · Core subjects introduced at developmentally appropriate levels

GLT Advanced (Ages 6–12) · Core subjects taught with increasing academic rigor

Our Centers

Cyn's Play Place

BCC Flagship Center

The original BCC center. Nine years of excellence setting the standard for every location in the network. Infant, toddler, preschool, and Cyn's Academy PreK programming.

The Eli Center

Early Learning Center

Carries the full BCC program including GLT curriculum and Cyn's Academy PreK. Same standards, staff expectations, and curriculum integrity as the flagship.

The Canaan Center

Early Learning Center

Bringing the full BCC experience to a new community. Complete BCC programming including GLT immersion and Cyn's Academy PreK upon opening.
