

YOUR PRINTABLE REFERENCE

Your Chamber Comparison Guide

Keep the range close at hand as you explore the format, entry, and room plan that suit your priorities.

Model	Format	Starting point for comparison
OxyPrime I	Portable lying	Soft-sided, curved zipper entry
OxyPrime I+	Portable lying	Roomier portable lying design
OxyPrime II	Portable seated	Reclining design for sitting or lying
OxyPrime III	Wheelchair-accessible	Accessible entry with a collapsible ramp
OxyPrime IV	Hard-shell	Generous transparent cabin
OxyPrime IV+	Hard-shell	Dark exterior option
OxyPrime V	Hard seated	Seated design for comfortable reclining
OxyPrime VI	Multiplace hard-shell	Shared-use format; confirm capacity and layout

This is a range overview, not a complete specification sheet. Request current dimensions, operating requirements, included equipment, and model-specific documentation for the exact configuration you are considering.

A useful first step

Circle the models you want to discuss. You do not need a finished room plan or a final choice to start a private conversation.

O2 Chamber Hub

MAKE THE COMPARISON YOURS

Bring your priorities into the conversation.

My shortlisted models:

☐ **Comfort and entry**

Do I prefer lying, sitting, or reclining? What access needs should the supplier understand?

☐ **Room and delivery route**

Ask for exact dimensions, clearances, equipment space, doorway access, and delivery requirements.

☐ **The complete configuration**

Ask for pressure capability, oxygen-delivery arrangement, included equipment, accessories, and the relevant manufacturer documents.

☐ **Ownership and support**

Compare delivery scope, setup, training, maintenance, warranty terms, and the service contact.
