Morgan Lee, BSN, RN

Pittsburgh, PA · (202) 555-0142 · morgan.lee@example.com

PROFESSIONAL SUMMARY

Newly licensed registered nurse with three years of certified nursing assistant experience in long-term care. Brings experience supporting activities of daily living, communicating changes to licensed nurses, and protecting patient dignity. Completed a 180-hour medical-surgical practicum under RN supervision; seeking a first RN role with structured orientation and opportunities to build clinical judgment.

LICENSURE AND CERTIFICATION

Registered Nurse, Pennsylvania · Active, issued July 2026
Basic Life Support (BLS), American Heart Association · Expires April 2028

EDUCATION

Bachelor of Science in Nursing · May 2026
Meadowbrook University, Pittsburgh, PA (fictional)

STUDENT CLINICAL EXPERIENCE

Senior Nursing Practicum, Adult Medical-Surgical
Riverbend Community Hospital, Pittsburgh, PA (fictional)
January–April 2026 · 180 supervised clinical hours · Student nurse role

- Organized care for up to three assigned patients with an RN preceptor, using a shift plan to track assessments, scheduled care, and reassessment.
- Noticed increased work of breathing during a supervised assessment, promptly notified the preceptor, and communicated findings using SBAR.
- Used teach-back during supervised discharge education and documented care in the electronic health record with instructor or preceptor review.

Additional Student Clinical Rotations · August 2024–December 2025

Adult health: 120 hours · Maternal-newborn: 60 hours · Pediatrics: 60 hours
Behavioral health: 60 hours · Community health: 60 hours

HEALTHCARE WORK EXPERIENCE

Certified Nursing Assistant (CNA) · Willow Creek Care Center, Pittsburgh, PA (fictional)
June 2023–August 2026 · Long-term care · CNA role under licensed nurse direction

- Assisted residents with bathing, dressing, toileting, meals, and mobility, following individualized care plans and communicating preferences to the care team.
- Measured and recorded assigned vital signs and intake/output; promptly reported changes in breathing, alertness, and mobility to the licensed nurse.
- Used prescribed transfer assistance and infection-prevention procedures; asked for help when a transfer required additional staff.
- Shared objective observations during shift handoff and coordinated assigned care with nurses and fellow CNAs during busy periods.

LEADERSHIP AND SERVICE

Peer Study Group Facilitator · Meadowbrook University · September 2025–April 2026
Organized weekly case-review sessions for six nursing students and used faculty-approved materials to practice explaining clinical reasoning.
