

Diagnosis Journey

From a family noticing something to a diagnosis in hand

Hospital Discharge

From a crisis stabilized to a family managing recovery

□ Organization

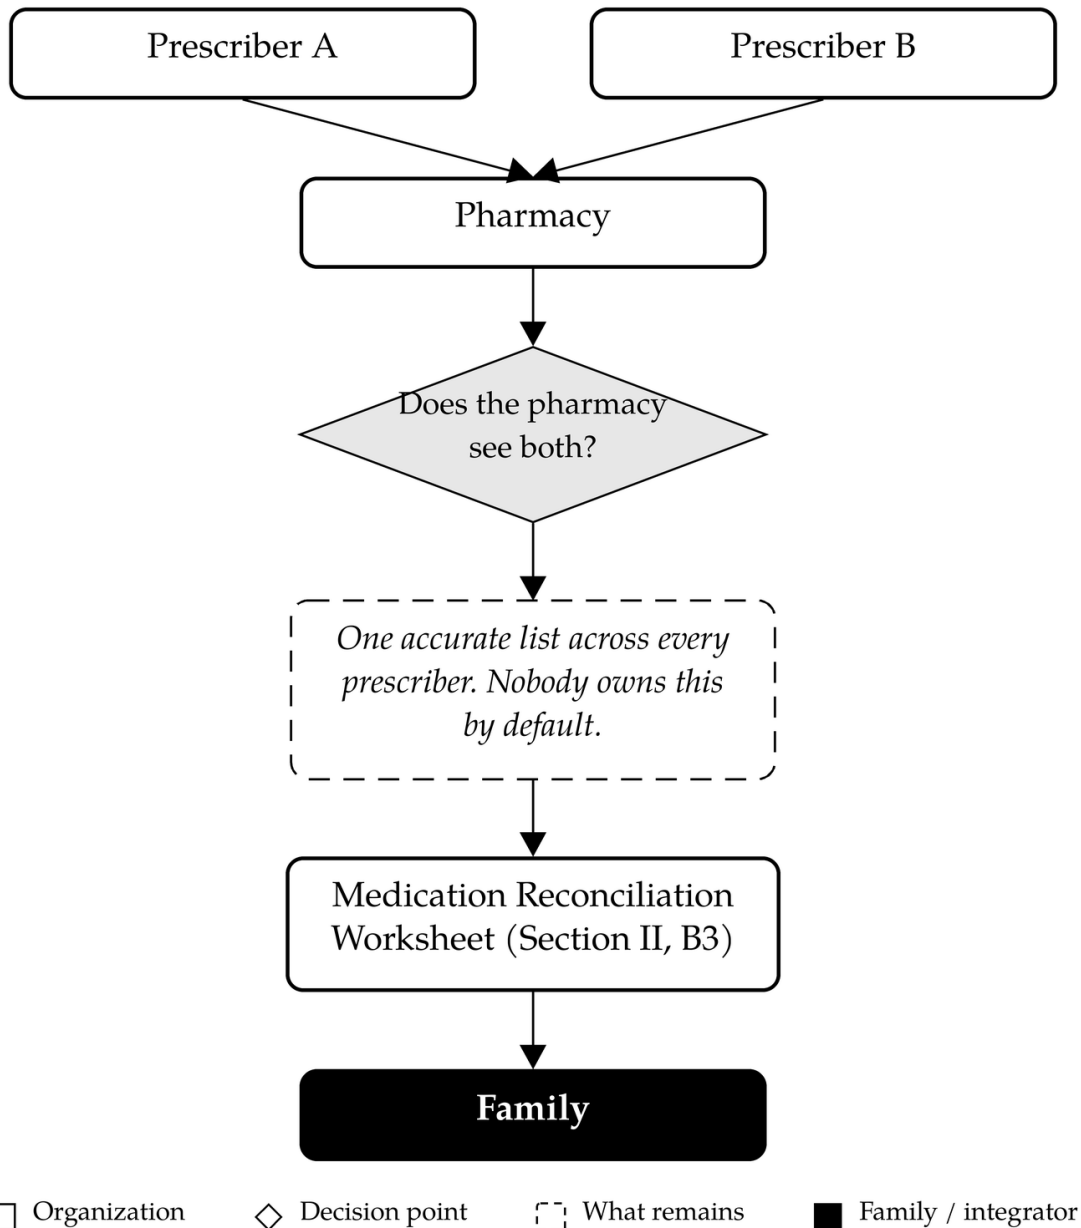

◇ Decision point

⋮ What remains

■ Family / integrator

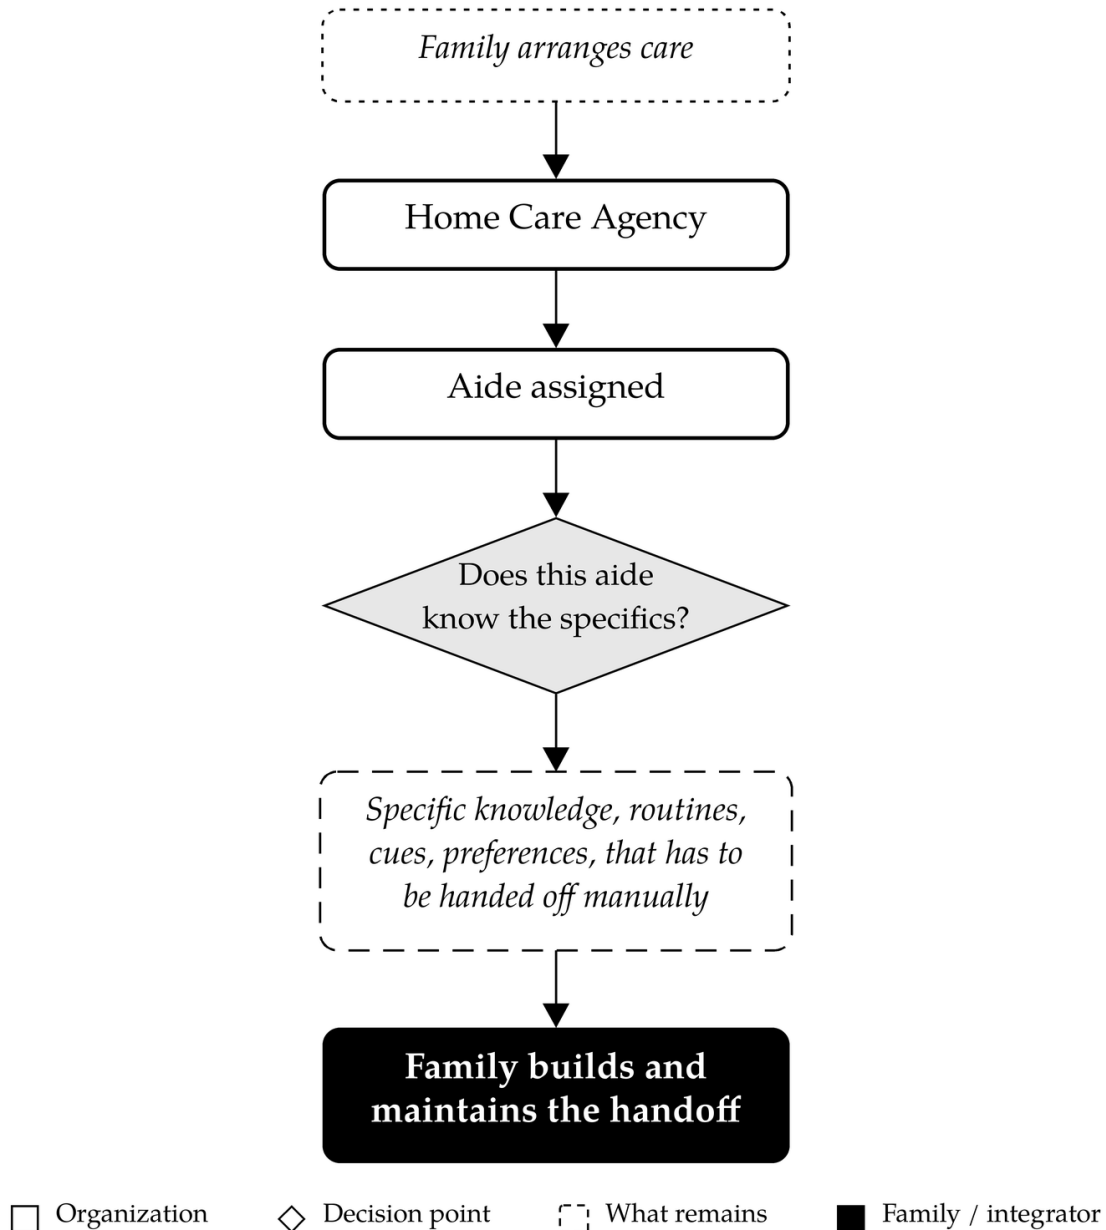

Medication Management

From several prescribers to one accurate list

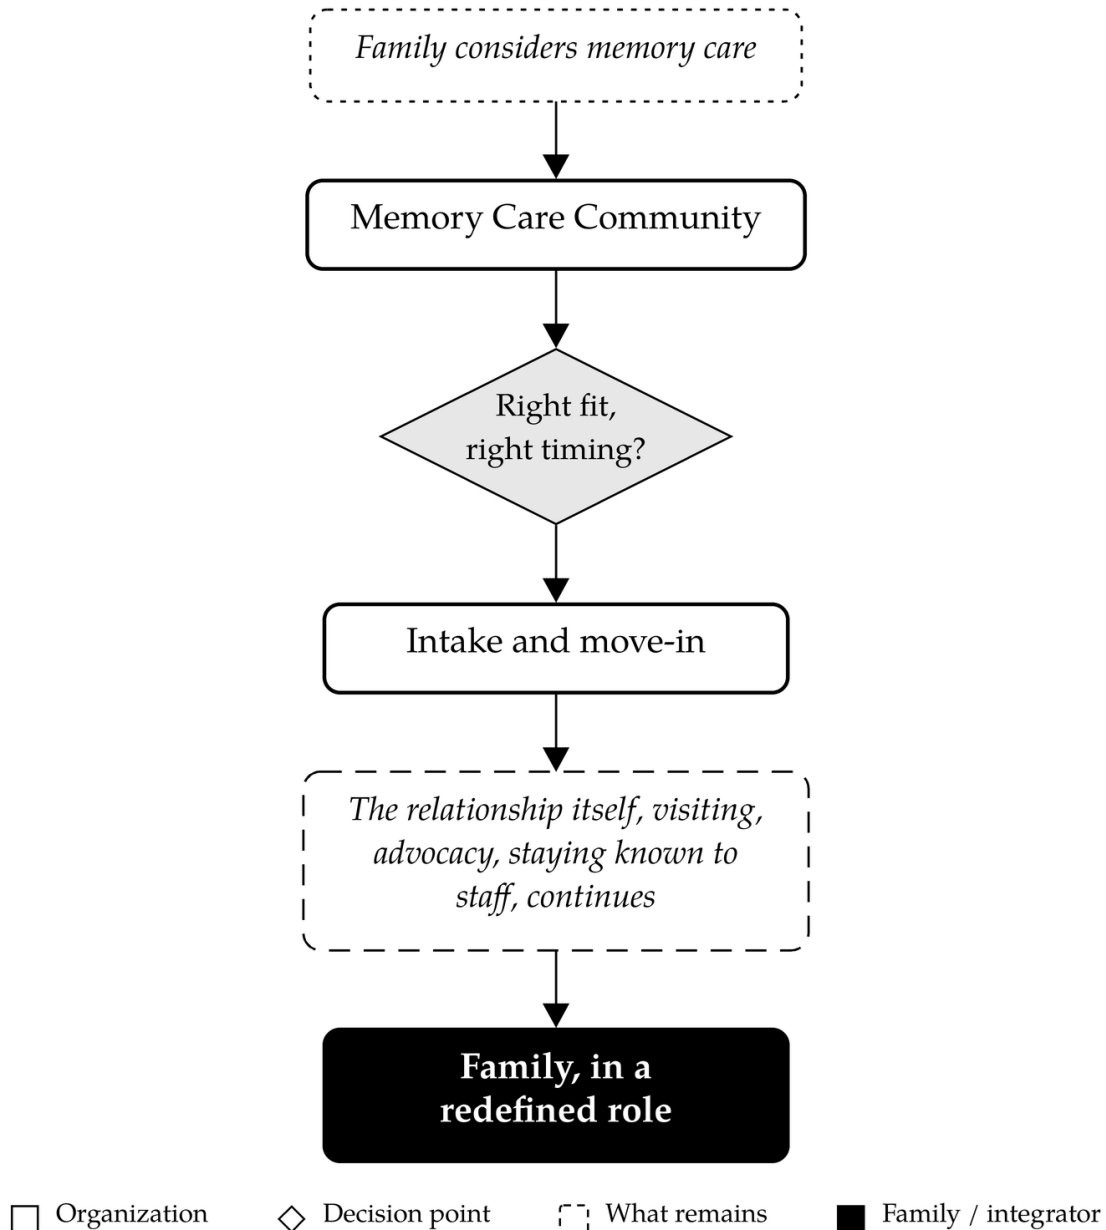

Home Care

From an agency assignment to a trusted routine

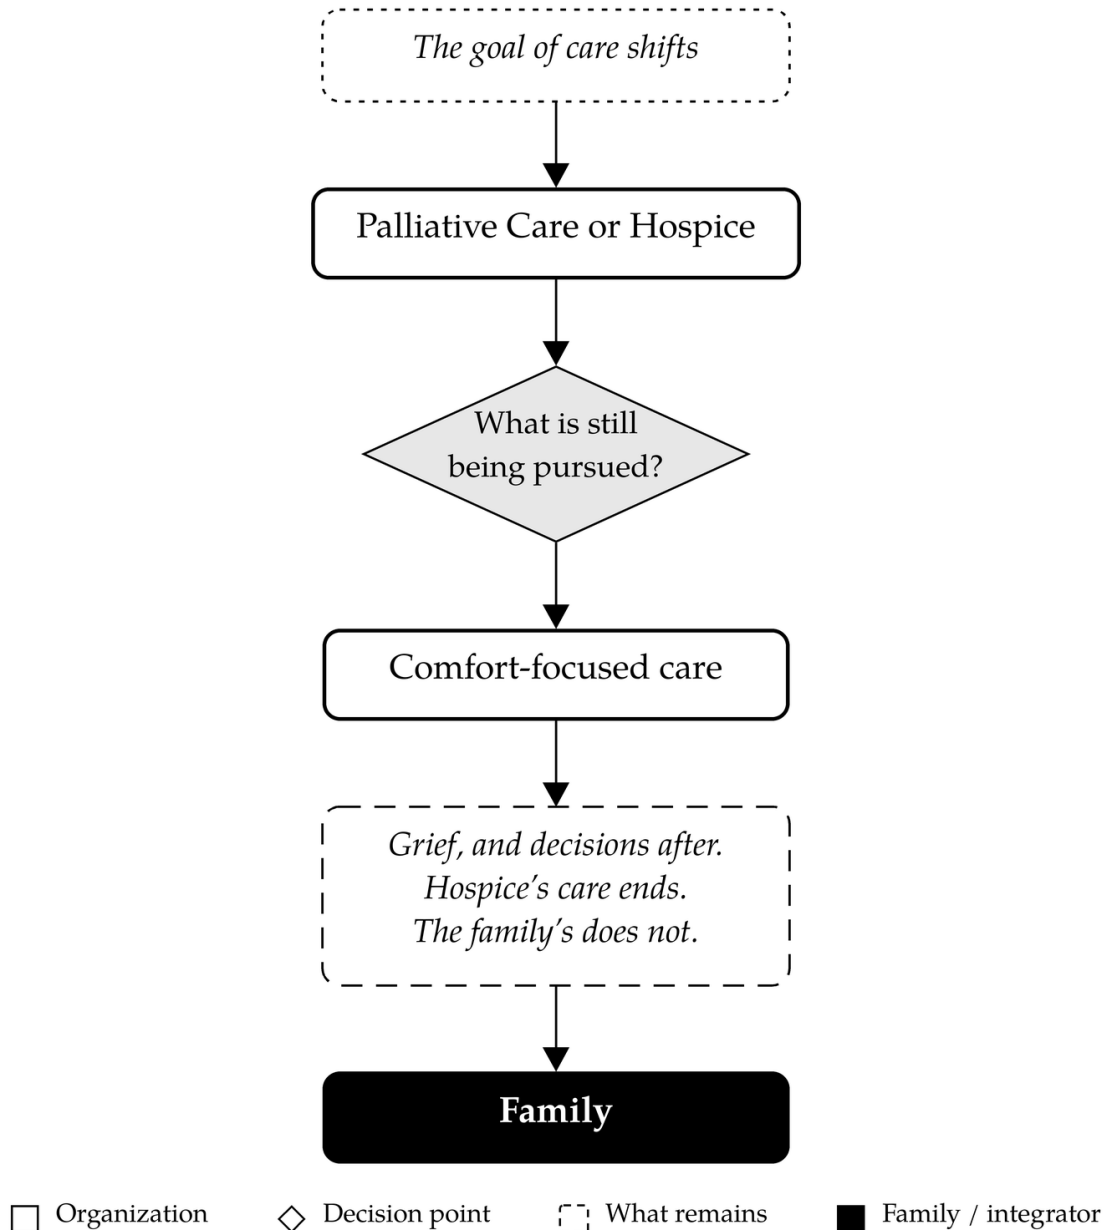

Memory Care

From a hard decision to a redefined family role

End-of-Life

From a shift in goals to grief that outlasts the care team

Becoming the Integrator

How the role gets filled, almost always without a decision
