

**The Arctic is a cold
and snowy place
most of the year.**

Polar Bear

**But then something
almost magical happens.**

Animals that sleep during the winter wake up.

An **Arctic Ground Squirrel** scurries about collecting food to eat.

Baby animals are everywhere.

The babies grow up quickly during the short Arctic summer. Soon the long Arctic winter will return.

Arctic Foxes

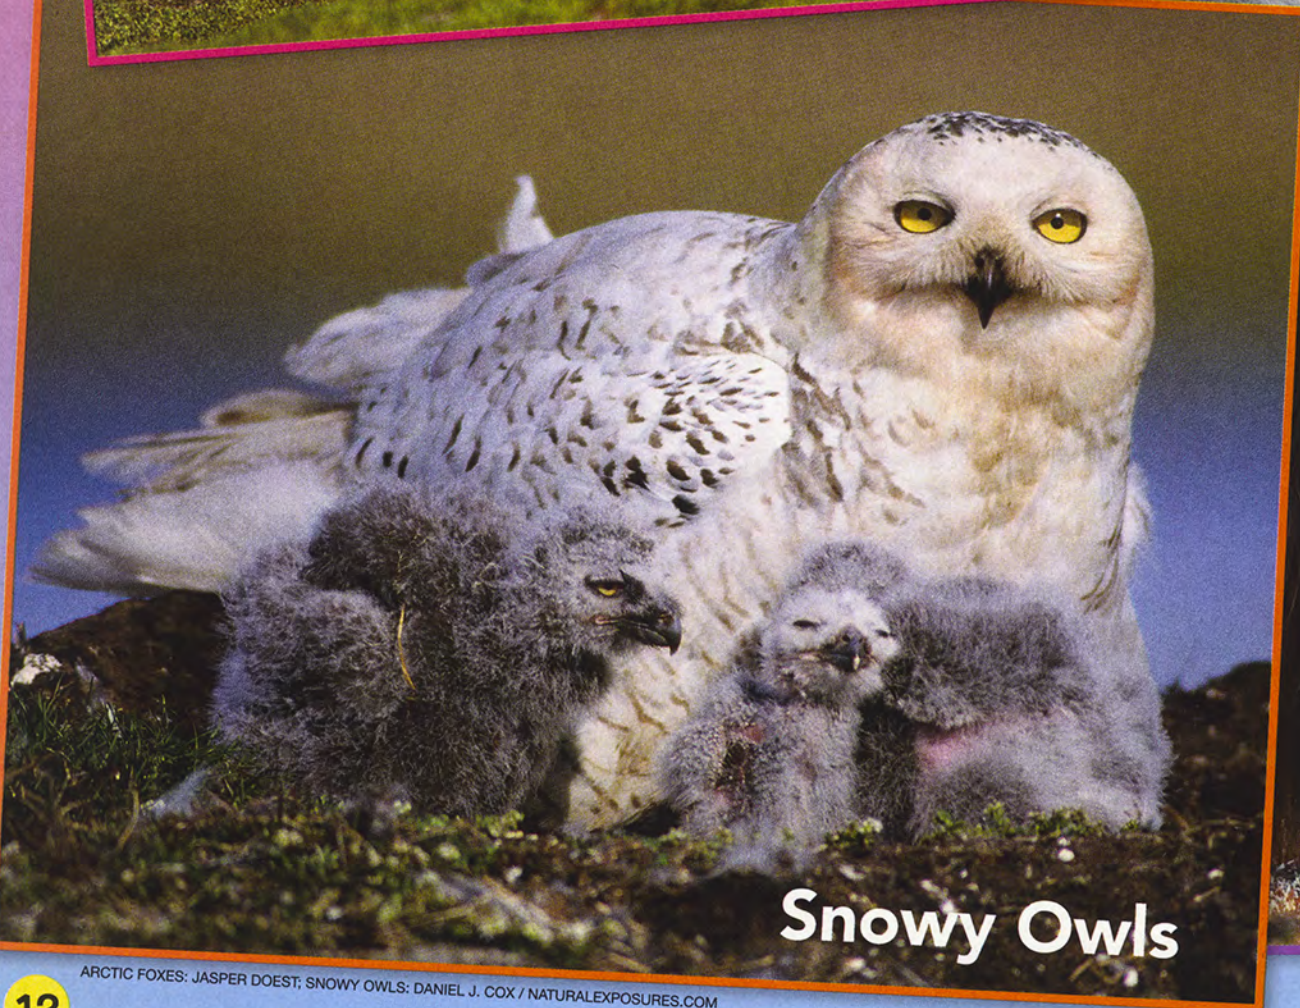

What's your favorite Arctic animal?

Caribou

Musk Oxen

Snowy Owls
